Recommendation for Edmonton, AB

Primary Recommendation: Swift Innovations (#2 overall, #1 for your situation)

While Delon Laboratories scores highest overall due to 80+ years of track record and top-tier certifications, **Swift Innovations is the strongest choice for an Edmonton-based body care business**. They are the only formulator physically located in Edmonton, have no minimum order requirement (critical for a new brand), hold solid certifications (GMP, ISO, ECOCERT), and specialize in exactly the body care product types you need. Being local means you can visit the facility, iterate on formulations in person, and save significantly on shipping.

Also noteworthy: ILC Skin Care (#7) is in Calgary — just 3 hours from Edmonton, offers small-batch manufacturing, and holds a Health Canada NHP site license. A strong backup or second source.
